

MISS ELLEN M. MEISSNER, BELOVED OGDEN GIRL, CALLED BY DEATH

Miss Ellen Margaret Meissner, daughter of Mr. and Mrs. Fred Meissner, 1225 Twenty-fifth street, one of Ogden's talented young musicians and teachers, died Sunday night at 9:30 o'clock at the family home. Her death resulted from an attack of pneumonia suffered last May. Complications set in from this malady and her condition became worse until her death resulted. She was born in Ogden, June 13, 1893. She is survived by her parents and two brothers, George F. Meissner, who has been working at the shipyards at Alameda, Calif., and Harmon S.

SAWTOOTH FOREST OF IDAHO HOLDS OUT ATTRACTIONS FOR CAMPERS FROM THIS CITY

Associate Forester A. F. Potter, of the United States forestry service, has returned to the local headquarters from the Sawtooth forest of Idaho. He reports the grazing conditions of this district as exceptionally good. He says the percentage of lambs of the herds of that grazing district is above the average, and that the weight of the lambs is high.

In connection with Mr. Potter's grazing work, he is seeking to improve camping grounds in the forestry lands. This is a comparatively new work which the government has taken up with exceptional vigor. Mr. Potter says the recreational resources of the Sawtooth district are undergoing extensive improvements. The natural

beauties of this section are attracting hundreds of autoists and campers. The forest is situated at the sources of Salmon and Wood rivers and is surrounded by high mountain peaks broken by numerous small lakes.

Mr. Potter says that Idaho, as well as northern Utah farmers, are choosing the natural beauty of the mountain districts in preference to their usual trips to the Pacific coast.

The associate forester states that the roads of the Sawtooth are exceptionally good and should attract numerous Ogden campers when they better understand the beauties of the government forests. To reach the Sawtooth district by road from Ogden the campers take the Pocatiello-Halley route.

DESTRUCTIVE FIRES CAPT. ROB. WARWICK TO BE GUARDED AT UTAH THEATRE AGAINST

In order to prevent the loss of food stuffs from destructive fires, the Federal Food Administrator for Utah urgently recommends and requests that those directly concerned observe the following regulations:

1st. That, for the purpose of eliminating fires, every railroad appoint a man, or men, to carefully inspect spark arresters, or other equipment, on engines before they leave the terminal for a trip; and keep a record of such inspection which can be referred to at any time by our duly authorized agent, in the event that it becomes necessary to investigate the origin of the fire.

2nd. That the farmers set their wheat shocks back at least one hundred feet from the railroad fence, and plow a fire guard of at least three furrows between the shocks and the railroad track.

3rd. That the farmers stack their hay and grain as far from the railroad tracks as possible, but where the stacks are left in the field within a quarter of a mile of the tracks, a fire guard be plowed around them; and the ground from which the hay and grain were taken be carefully raked and rakings removed as soon as possible.

4th. That a fire guard be made at least ten feet wide over all ditch banks, where dry weeds and grass exist from which fire might spread and burn up grain and other stored crops.

Motion picture patrons have been treated to all sorts of villainies, and to get something new and different is always uppermost in the minds of story writers of today. But here is a false friend who is somewhat different in his villainies. In this case DeWitt Clinton makes it appear that Ramsdell, his best friend, is addicted to the opium habit, in order that Clinton may be successful in winning the girl that both love and who favors Ramsdell. And the worst part of it is he succeeds, but only temporarily, because like all good heroes Ramsdell extricates himself from the slough of despond, and returns to meet the man who stole the girl from him. Despite the rather odd source of villainies, this picture contains a number of startling situations that makes for it an exceptional production at the Utah today.

EIGHT NEW STEEL SHIPS DELIVERED

WASHINGTON, July 29.—Eight steel ships with a total deadweight tonnage of 35,890 were delivered by American shipyards last week, the shipping board announced today. Launchings for the week included ten steel vessels with a total tonnage of 53,250 and five wooden ships with a tonnage of 19,200.

SIoux CITY ENGINEER SAYS OGDEN HAS GOOD PAVING

T. H. Johnson, city engineer of Sioux City, Iowa, visited Ogden this morning for a few minutes while enroute to San Francisco. Mr. Johnson was called there by the illness of his mother. He was met at the depot by O. J. Stillwell, secretary of the Ogden Publicity Bureau, who returned recently from a trip to Sioux City to inspect pavement, and the two drove about Ogden for a few minutes. Mr. Johnson was shown the Twenty-third street paving and the Lincoln avenue paving and declared the work to be as good as any in Sioux City.

CLASSIFICATION OF MEN OF 1918

The classification of all registrants of the class of 1918 has been finally completed by the city exemption board and cards are being mailed to the registrants informing them of their standing. Class five appears to have the greatest number of men because youths who have enlisted in the different branches of service are placed in this class when notice is received that they are in service.

The names of the men in class one have been given in the paper before. The following constitute all men in the 1918 registration not in class one: Class Two—Palmer W. Leitcham, Cecil Dean Hunter, Joseph Alken, Class Three—Arthur W. Bowman, John Roach Neale, George W. Sparks, George W. Clifton, Henry J. Cragin, Jesse P. Chambers, Ellis Donaldson, Eugene Nelson, Michael G. Pantone, Class Four—Lloyd L. Belpap, Clarence J. Wadman, Arthur P. Hansen, Samuel Milligan, Rudolph H. Hancock, David Dean Gaisford, John C. Medcalf, Leland S. Heninger, Virg C. Garner, Elmer W. Greenwell, Bryant J. Furniss, Robert G. Wilson, Ralph G. Johnson, Horace L. Smuin, James P. Gale, John W. Clark, James C. Hadlock, Charles L. McBride, Joseph Riley, Kenneth N. Murray, Claud E. Huss, Rodney A. Bates, Arnel G. Barnett, Willard J. Sorenson.

Class Five—Alexander L. Brewer, George Q. Rich, Jr., Leonard E. Cashmore, Heber J. Bateman, Floyd D. Dudson, Walter E. Taylor, Howard N. Sorenson, Charles B. Flaner, Paul B. Firth, Gordon L. Clark, John R. Witteren, Edwin G. Putman, Claud W. Parry, Thomas Echevarria, George E. Balch, Elgiro Kawaguchi, Juan Esteban Manterola, John Antonena, Angel Otero, Erol Amos Collins, Elchi Masui, Schoichi Matsumoto, Claud E. Brandis, Jack Van Benthum, John S. Lockhead, Guglielmo Colci, Thomas Tollar, Felix H. Turnblom, Senzaburo Matsui, Masino Tosi, John Pagnetti, Genjiro Suzuki, Jose Gonzalez, George B. Shollif, Thomas W. Todd, Alfredo Fiabini, Tony Ceregioli, Kosaburo Chiba.

One of the biggest contracts for cement construction ever placed in the Intermountain country will be handled by Ogden firms in the supplying of approximately 60,000 sacks of the Globe Grain & Milling Co., in the construction of its immense elevators in West Ogden. According to an official of the General Engineering company, this part of the construction work will probably be started within six weeks and from its start, concrete will be poured night and day until the elevators are completed. In itself, this job will be one of the most gigantic ever performed in the building history of the state.

At present a gang of men is engaged laying the spur track and excavating for the foundations of the plant to be erected. The spur track will be completed in about thirty days and the excavation for the foundations will be finished this week.

In the meantime smaller structures necessary to the work will be built, such as machine and carpenter shops. There are six or seven carloads of steel for the structural work on the old site to be transferred to the new site.

Ralph A. Keller was entrained by the local board at Berkeley, Cal. Maurice Shipira and Parley N. Reynolds were entrained at Seattle. Avon D. Kidd was entrained at Portland, Ore. James L. Sampson has been accepted for general service in the army at Camp Lewis according to word received here.

Word has been received by Mrs. Joe Lauffenberger, wife of Sgt. Joe Lauffenberger, 303rd Signal Corps, that her husband is in France and enjoying the work. He is in charge, he says, of four Germans, three Italians and two Frenchmen, but they are all Americans—a paradox encountered in nearly every branch of the American army.

Sgt. Lauffenberger says the troops are eagerly awaiting the Browning guns but thus far have not received them.

Mrs. Lauffenberger is visiting Mr. and Mrs. E. Grey Freemond.

RAILROADS ARE FAR SHORT ON MEN AT PRESENT

W. H. Beckett, of the United States employment agency, states that the shortage of labor in this section has made it necessary for him to wire the local conditions to the federal authorities at Washington.

Mr. Beckett telegraphed that the railroads of this section are at present in need of 2159 men, with a supply of less than 100 available.

He states that the shortage of men may lead to further restrictions on shipments of nonessential goods and on passenger regulations.

SOLDIERS PARADE WITH THEIR BAND

One of the best displays of military drill yet seen in Ogden was witnessed by a number of people yesterday afternoon when about 1500 infantrymen marched from the union depot to Twenty-fifth and Washington avenue. The soldiers were on their way east from a western camp. Information regarding their exact identity was withheld for military reasons.

The men marched as a perfect unit and the maneuvering led the spectators to believe that the United States army is drilled like students of West Point who are trained for a period of four years.

In the parade, the soldiers were led by a regimental band.

A small detachment of the 145th field artillery passed through Ogden yesterday enroute to an eastern concentration camp. There were no Ogden boys in the battery.

"OVER THERE" COMING

The big Selznick picture "Over There" will be shown at the Alhambra next week, Wednesday and Thursday, at regular prices of admission.

HAS TWO SONS IN NAVAL FORCES

A. L. Brewer, former mayor of Ogden, now has two sons in the service of the country. Leland is now at a New York naval training station where in all probability, he will earn a commission in the materials division.

His next younger son, Chauncey, will leave Ogden tomorrow to become a marine. Chauncey is just 18 years of age but has plenty of that stuff which goes to make a first class marine.

Both sons were graduated from Weber college and have recently been continuing their education at the University of Chicago and at the University of Utah.

OGDEN BOYS SENT TO CAMP LEWIS

The local exemption board is receiving notice from foreign boards telling of the entrainment of Ogden registrants for Camp Lewis. The local board had fifteen men sent in this way on the last call.

Ralph A. Keller was entrained by the local board at Berkeley, Cal. Maurice Shipira and Parley N. Reynolds were entrained at Seattle. Avon D. Kidd was entrained at Portland, Ore. James L. Sampson has been accepted for general service in the army at Camp Lewis according to word received here.

COSETTE WOOD IS CAPTURED

WITH THE FRENCH ARMY IN FRANCE, July 29.—(Noon).—The enemy appears determined for the moment to hold his line stretching from Villers-en-Tardenois to the Ourcq. His troops strongly occupy Villers-en-Tardenois, but the allies are keeping in constant touch with him here. Cosette wood, further south, has been occupied by the allied who captured two field guns, two six-inch cannon and much ammunition in this wood.

ZEPPELIN RAID ON AN ENGLISH TOWN IS DESCRIBED

One of the most interesting meetings held in Harrisville this year was that of Sunday night in the ward chapel when John Hooper, of Hooper, lectured on England. Mr. Hooper has information concerning the war and its effect on the British people.

Mr. Hooper told of the way the English were fighting the war at home by stimulating production of factory and field, employment of women and co-operation of all branches of industry for the common cause. The women are doing the vast bulk of the work, he said, and may be found in every branch, except those for which they are absolutely unfitted constitutionally.

Food Just Sufficient. All of the people are on food rations, he said, which sometimes are rather short of being a sufficient amount, especially for hard working people. However, there has been a wonderful morale kept up among the people at home and all are determined that their sacrifice shall not cease until the war has been pressed to a successful conclusion.

Moral conditions among the people, especially the lower classes, have naturally degenerated to some extent, he said as the influence of the war for the time being has seemed to crowd out all thought of anything but the present existence.

Zeppelin Raids. Mr. Hooper told of a Zeppelin raid on a town where he was located for some months. Orders had been given that no lights were to be shown for a period of ten days. The order was strictly observed and the Zepp were unable to locate this town until a train crew coming into the city one night, neglected to keep sparks from the engine chimney down and the Zepp followed the train into the city and scattered its bombs. The havoc wrought was very considerable, he said, especially in certain quarters where bombs had opened the earth to such an extent that a team and wagon could easily be driven into the craters and hidden from view.

So great was the concussion from the huge bombs, that windows were shattered in all parts of the town and the force of the explosion was so terrific that people were struck and killed by flying rock fragments half a mile away.

"The Lion's Claws," the action of which takes place in Africa, will be shown at the Lyceum Theatre every Tuesday until the completion of the eighteen chapters. This serial will begin tomorrow, being shown with the last episode of "The Mystery Ship."

WORLD'S MARKETS

NEW YORK, July 29.—A further break of 9 points in General Motors was the only pronounced exception to the general firmness of stocks at the dull opening of today's session. United States Steel led the prominent issues at a gain of half a point with similar advances for Tobacco Products, Mexican Petroleum and St. Paul preferred, while several specialties gained from 1 to 2 points. Prices eased before the end of the first hour when trading came almost to a standstill. Liberty bonds were steady.

Trading fell into a rut later, the market becoming more irregular on the further heaviness of high-priced specialties. Sumatra Tobacco broke 1/4 points and Lorillard Tobacco lost 10 points on a single sale. Western Union forfeited another point and American Telephone a large fraction. United States Steel was the only leader to show any activity but gave no indication of tomorrow's dividend action. General Electric, Pressed Steel Car, People's Gas, Detroit United Railways and Burns Brothers Coal embraced the few strong issues.

CHICAGO LIVESTOCK MARKET.

CHICAGO, July 29.—(United States Bureau of Markets.)—HOGS—Receipts 35,000; market strong, mostly 10c higher. Big packers slow to take hold; butchers \$18.60@19.00; light \$18.75@19.05; packing \$17.40@18.50; rough \$17.00@17.35; bulk of sales \$17.90@18.95; pigs, good and choice, \$17.25@18.25.

CATTLE—Receipts 15,000; market generally steady to higher on beef and butcher stock; calves steady at Friday's close; beef cattle: Good, choice and prime \$17.25@18.50; common and medium \$16.50@17.25; butcher stock: Cows and heifers \$7.25@14.25; canners and cutters \$6.75@7.25; stockers and feeders: Good, choice and fancy \$10.00@13.00; inferior, common and medium \$7.75@10.00; veal calves: Good and choice, \$16.25@16.75.

SHEEP—Receipts 21,000; lambs slow, mostly 50c lower on killing classes; choice Washington wethers \$14.40.

CHICAGO QUOTATIONS

CHICAGO, July 29.—Better weather conditions, beef rally in Kansas brought about lower prices today for corn. Liberal receipts and continued successes against the Germans tended also to favor the bears. Besides, it was said the crop this season was now three weeks nearer to maturity than was the case a year ago. Opening prices, which varied from the same as Saturday's finish to 1 1/4c lower, with August \$1.54 1/2 to 1.55 and September \$1.55 1/2 to 1.56, were followed by a material setback all around.

Oats paralleled the action of corn. Trade was of moderate volume. After 1/4 to 1/2c down with August 70 1/2c, the market underwent a further sag.

Upturns in the value of hogs strengthened provisions. Buying, however, was of only a scattered local character.

Urgent Notice to Britons and Canadians in the United States

On July 31st the Recruiting Convention between Great Britain and the United States will come into force and the period for voluntary enlistment terminates on September 28th.

During this period of sixty days, all Britons and Canadians between the ages of twenty and forty-four, both inclusive, have an opportunity of offering their services to their own countries at a time when the services of every man is urgently needed.

For sixty days all British subjects between the above ages will be exempt from the American draft and can enlist at any recruiting depot of the British and Canadian Recruiting Mission, regardless of the fact that they may have taken out first United States citizen papers or have been classified in Class One.

During this period of sixty days all Britons and Canadians of twenty years of age and those between the ages of thirty-one and forty-four, both inclusive, will be required to register on a date fixed by proclamation of the President, and thirty days after registration men of these ages will be liable to the American draft.

On September 28th the period within which you can volunteer expires and thereafter you will be liable to draft into the United States Army.

For information as to rates of pay, separation allowance, etc., apply to British and Canadian Recruiting Depot named below. W. W. WHITE, Brig. General British and Canadian Recruiting Mission.

EXAMINATION FOR RURAL CARRIERS

E. A. Stephenson, secretary of the local civil service commission, has announced an examination for Weber county to be held at the postoffice of August 24th for the purpose of filling vacancies as rural mail carriers.

The examination will be open to both male and female citizens of the county. The examination, under ordinary conditions, is open only to men but the United States Civil Service commission at Washington has announced that, for the duration of the war, the commission will heed the request of the postoffice department admitting women to the examination for rural carriers on the same conditions as men.

Applications may be obtained at the local postoffice. All applicants are advised by Secretary Stephenson to forward their applications to the commission at Washington, at the earliest possible date.

"The Lion's Claws" is the title of a new serial in which the popular Marie Walcamp, star of "Liberty" and "The Red Ace," will be seen in eighteen big thrilling episodes at the Lyceum Theatre, commencing tomorrow.
